

Project overview...

Creating and maintaining gardens that are becoming a daily activity for the children during After School Care and Vacation Care programs.

These hands-on experiences are educating the children about where food comes from and encouraging healthy eating by allowing children to prepare, cook and consume the fruit and vegetables they grow.

“Growing Green Thumbs”

St Patrick's OSCH

St Patrick's OSCH Innovation Fund in action...

Two vertical gardens have been set up whilst the larger garden awaits some soil.

The children are busy watering the new plants and the educators have incorporated garden maintenance into their daily programs.
